Education Professionals' Week - November 20 to 24, 2023

Next week, November 20th to 24th, we'll be celebrating Education Professionals' Week under the theme **Present. Professional.**

*This year, Professionals' Week will be quite special, as we'll all be on strike for three days, starting on Tuesday!*

*We're ready to assert ourselves as key players in education!*

*Our skills in pedagogy, direct services to students, administrative services and material resources services, set us apart and bring us together.*

*Our demands are legitimate because we deserve better working conditions and better pay!*

*This recognition at in the workplace is essential. It provides for fair and equitable acknowledgment to of our expertise, efforts and achievements.*

*Let's take advantage of this week to discuss and exchange views on the picket lines with our colleagues, and to learn a little more about our respective jobs!*

*All members of the SPPMEM Executive will be present on various picket lines.*

**You are, each and every one of you,  
outstanding professionals!  
Thank you for the work you do day  
after day!**
