Director General Announcement for Staff and Schools

Hello everyone,

Please see below the important information for the Director General Mrs. Ann Marie Matheson. For all professionals, please note that the two next weeks are not vacation time.

It will be time for you to complete your reports, plan for next year, consult via email with you colleague regarding some situations. Remember that you need to remain available at all times if Sabrina, Patricia or me need to speak or meet (via email) with you.

For the ASD and Project Harbour Technicians, you can work from home for the next two weeks but remain available if your immediate superior need to be in contact with you.

All support staff are ask to be at work as usual. All the managers of the department will be at work as well.

However, since the Board office remains open, if you want to work from the Board please let me know. If you need to get some of your files in the schools in order to complete your work at home, please note that the schools will be open on Monday and Tuesday from 8:00 to 2:00.

Please consult your email on a regular basis in order to stay in touch with the latest information. As a say before, those two weeks are not vacation time. I will have more information for you Monday or Tuesday.

Thank you.

Julie René de Cotret
